Core curriculum (ie. math, science, language, cultural enrichment, music) These are the building blocks for later years, and must be foundationally established	
for a healthy learning mindset	Core Academics
Clear focus on academic achievement, especially in English and Math. Students will learn digital literacy/tech skills needed to get by, but we need to ensure there	
are intelligent, critical thinkers behind the devices.	Core Academics
Focus on basic education Core competency in reading, math and science is important	Core Academics
Put more emphasis on math, reading & writing in the curriculum. I don't want our students falling behind in these core areas of learning. I feel these are the most	
critical skills to be addressing.	Core Academics
