Project Plan / Scope of Work

Project Name: Peachland Elementary School Community Garden

Project Summary:

The students and staff at Peachland Elementary School (PLE) have been engaging in more outdoor learning. As a result, they are seeking the Board of Education's approval to create a Community Garden. Students will have an opportunity to learn using a hands-on approach, connecting with nature, increasing physical activity, and exploring areas of passion utilizing inquiry-based learning.

PLE is proposing to install nine (9) galvanized above ground metal bins with all materials being donated by the Peachland Wellness Centre and the placement and filling of garden soil to be undertaken in coordination with the Wonder Club (students) from École Glenrosa Middle School and the District's Grounds Coordinator.

The costs of this project are minimal and PLE has identified that they will be receiving funding from the Peachland Wellness Centre through a post COVID recovery grant to cover all materials and labour required to complete this project.
